

PAKISTAN ZINDABAD PKZ TOKEN WHITEPAPER

PKZ

Pakistan Zindabad (PKZ)

The Official Token for Unity and Welfare

PKZ

FOUNDER KHAN ARBAZ ALI

Gold Medallist Graduation
Silver Medallist Post-Graduation

Project Vision

The Pakistan Zindabad (PKZ) token is a project rooted in the values of transparency, justice, and education. It will fund and support the development of a charitable trust, an educational institution open to all nations, and a transparent blockchain ecosystem.

Trust: Pakistan Zindabad

The first step is to establish the 'Pakistan Zindabad' trust in Pakistan. This trust will handle all charity-related functions and ensure proper use of funds from the charity wallet.

University of Mentors

Based on the trust, the 'University of Mentors' will be launched. It will operate under a hybrid model - both physical and digital - making education accessible to all globally.

Blockchain Development

A new blockchain will be developed, using either Proof of Stake (PoS) or a state-of-the-art consensus model, with a strong focus on transparency and accountability in public systems

PKZ Token Utility

The PKZ token will have two primary wallets: - Charity Wallet: Funds the trust, university, and blockchain projects. - Marketing Wallet: Supports outreach, awareness, and project promotion.

Token Supply and Governance

Total PKZ Supply: 1,000,000,000 (1 Billion) With Anti-whale measures to safe from rug pull, charity and marketing fee structure, and locked liquidity ensure a stable and trustworthy token economy.

Project Roadmap

Project will follow a clear path of milestones:

1. Launch of Trust
2. Establishment of the University
3. Blockchain Development & listing on CEX Exchanges
4. Community and Ecosystem Expansion
